LEGAL.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the county of Washoe. The State of Nevada sends to Archibald Gibson Gaudin: You are hereby required to appear in an action commenced against you as defendant by A. E. Gibson, as plaintiff, in the District Court of the State of Nevada, in and for the county of Washoe, and answer the complaint therein within ten days after the service on you of this summons exclusive of the day of service, if served in said county, or twenty days if served out of said county but within said district, and in all other cases ten days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the Court dissolving the bonds of matrimony heretofore and now existing between you and this plaintiff, upon the grounds of desertion and failure to provide plaintiff the common necessities of life, though abundantly able to do so, all of which will more fully appear from the complaint which is on file in the office of the Clerk of said Court at Reno, in said county, and to which you are especially referred, and you are further notified, that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand and affixed the seal of said Court this 3d day of March A. D. 1890.

T. V. JULIEN, Clerk of the District Court of the State of Nevada, in and for the county of Washoe.

SUMMONS.

IN THE DISTRICT COURT OF THE STATE of Nevada, in and for the County of Washoe. The State of Nevada sends to Vincenzo Alberti, defendant, greeting: You are required to appear in an action commenced against you as defendant by Maria Alberti, as plaintiff, in the District Court of the State of Nevada, in and for the County of Washoe, and answer the complaint therein within ten days after the service on you of this summons—exclusive of the day of service—if served in said county, or twenty days if served out of said county, but within said district, and in all other cases forty days; or judgment by default will be taken against you according to the prayer of said complaint. The said action is brought to recover the judgment and decree of the said Court dissolving the bonds of matrimony now existing between you and said plaintiff, on the grounds of extreme cruelty on your part toward her, practiced by you since the marriage between you and said Maria Alberti, all of which will more fully appear from the complaint which is on file in the office of the clerk of said court at Reno, in said county. And you are further notified that if you fail to appear and answer said complaint, the said plaintiff will apply to the Court for the relief demanded.

In testimony whereof, I have hereunto set my hand this 13th day of February, A. D. 1890.

R. H. LINDSAY, Attorney for Plaintiff.

A PROPOSED LAW WITH AN "IF" IN IT.

We hope the silver men in Congress have not gone altogether daft. In their anxiety to secure some action, they seem likely to do irreparable mischief. They are temporizing and compromising in all directions. This is the extreme of folly. There is but one safe position; there is but one beneficial position, namely, free and unlimited coinage of the entire product of the country. To say that we will coin any given number of millions will not do at all. To decide in favor of coining \$100,000,000 annually would not help silver a cent an ounce in this country. There must be no figures in the bill and no limitations. The full restoration of the metal is what is wanted. The law must proclaim to the world that we have changed front and that America is henceforth a bi-metallic nation. This country must be completely taken out of the European money combination. If this is not done, silver will not be benefited. Any limit, no matter how great, will be futile; worse than that, it will be perilsous and nonsensical. The silver sentiment is growing in the United States, for there are now some Eastern Republicans said to be in favor of the double standard. This was not so a few years ago. The Democratic members in both houses of Congress voted for free coinage. Unfortunately there has never been enough of them. But we began this article to give warning against a very silly proposition which seems to be meeting with favor in Congress. We allude to that provision in the Windom bill which declares that "if" silver goes to par with gold then free coinage shall commence. That "if" would destroy us. The gold bugs, who control the money markets of the world, would make it their special business to see that it never got to par. They would execute a war dance on silver from the moment the bill became a law. The very thing intended to help silver would depress it and insure its ruin. Let us have no "ifs" or conditions. Give us free and unlimited coinage or nothing. Anything else will be a cheat and a fraud. —Eureka Sentinel.

What Ohio's Chelone Did.
Special to the Journal.
AKRON, Ohio, April 9.—Reports show the storm was most severe about two miles northwest of Sharon, Wayne county. In ten minutes it leveled everything in its track over six miles of farm lands for a width of thirty rods, and demolished a dozen buildings. It killed one man, fatally injured a man and woman and seriously hurt others. Trees were cut down like corn stalks.

At Work on the Tariff Bill

WASHINGTON, April 9.—The Republican members of the Ways and Means Committee were in conference this afternoon, adding the finishing touches to the Tariff bill.

HUNTINGTON'S ADDRESS.

THE POLICY OF THE NEW PRESIDENT OF THE SOUTHERN PACIFIC.

A Bill for the Recoinage of Subsidiary Coin—The Charleston Ready for Duty.

President C. P. Huntington's Address of Acceptance.

Special to the Journal.
SAN FRANCISCO, April 9.—In his address accepting the office of President of the Southern Pacific Company to-day, C. P. Huntington thanked the Board of Directors for the honor of placing him at the head of the executive department of a corporation with over seventy-five hundred miles of railroad and a capital of one hundred and fifty million dollars. He assured the Directors he would be as true to the interests of the company in the future as in the past. He declared that the road if properly managed could be made to advance the best interests of the State, and that too without doing injustice to its owners, as their interests could not be better served than by building branches into all the beautiful valleys of California and other States and Territories through which the lines had been extended. He closed his address by enjoining the officers of the company not to interfere in political affairs. He said corporations should not be used to advance the interests of this party or that, or to raise up any one man or pull down another, and this corporation shall not be so used henceforth for any such purpose if its President can prevent it. But he will do all that he can to bring property up to the highest state of efficiency at the minimum cost, not forgetting that "there is a withholding that leadeth to poverty."

Judicial Reform Needed in California.

Special to the Journal.

SAN FRANCISCO, April 9.—A circular has just been issued by the California State Bar Association, which contains an address by ex-Judge Thomas H. Stoney, President. President Stoney states that a well founded dissatisfaction with the condition of law, and with the mode of its adjustment in this State prevails widely. He says there is a deplorable uncertainty as to what the law is, owing to want of harmony in the opinions of Justices composing the Supreme Court, and added to the condition of affairs there is intolerable delay in obeying justice in the ordinary course of judicial procedure. He declares that if the events complained of are as serious as they are claimed to be the only adequate remedy will be in the thorough reorganization of the system by the amendment of the Constitution. The President announces that the Executive Committee deems it advisable to have a thorough discussion of the subject of Judicial Reform at the annual meeting of the Association, May 5th next, and invited the attention of all members to the subject.

The Flagship of the Pacific Ready for Duty.

Special to the Journal.

SAN FRANCISCO, April 9.—The United States cruiser Charleston, flagship of the Pacific Station, which has been at the Mare Island Navy Yard, taking on her armament and stores since her trial trip last August, left the navy yard early this evening and steamed down the bay to this city where she anchored in the stream. The Charleston will pass out of Golden Gate to-morrow morning and have a run of six hours for a trial of her engines for the benefit of the Inspection Board.

She will return here to-morrow evening and remain until Saturday morning when she will leave for Santa Barbara, remaining away a week or ten days during which time her guns will be tested. She will then return to San Francisco and remain in the harbor here until May 5th, when it is expected she will start on a regular cruise to South American ports.

An Old Man Drops Dead.

Special to the Journal.

LOS ANGELES, April 9.—S. L. Cutler, aged 60, dropped dead on the street to-day of heart failure. He was unmarried and related to a wealthy boot and shoe manufacturer, at Hopkinton, Mass. It is said he lost \$20,000 in real estate speculations here.

Want More Small Change.

Special to the Journal.

WASHINGTON, April 9.—Representative Bartine, from the Committee on Coinage, and Weights and Measures, to-day reported to the House a bill authorizing the recoinage of subsidiary coins in the United States. The subsidiary silver coin now in the treasury amounts to \$22,774,257.

Death of Major C. P. Drake.

Special to the Journal.

PRESCOTT, A. T., April 9.—Major C. P. Drake, a veteran of the late war and ex-United States Marshal of Arizona, died this afternoon from the effects of a wound received during the war. He has been confined to his room for about a year and a half.

Trouble Never Comes Singly

Special to the Journal.

LOS ANGELES, April 9.—During the absence of Mrs. H. C. Orne, at Santa Paula, attending her husband, who was badly injured in the recent oil explosion, their house here caught fire to-day and was totally destroyed.

Death in a Sewer.

Special to the Journal.

STRAUCER, N. Y., April 9.—By the caving in of the main sewer on East Kennedy street late this afternoon, five workmen were buried beneath about 40 tons of earth. Strange to say, when the dirt was removed only Jeremiah Lynch was dead. The rest—James Ryan, Patrick Lavalle, John Weston and Frederick Marshall—were injured, but not seriously. Directly after the accident several thousand people gathered about the place, and the work of rescue did not lag for want of help.

John Weston, James Ryan and Patrick Lavalle were reached in about fifteen minutes. Weston's left ankle was crushed. He refused to go home or allow anybody to care for his injuries until after his fellow-workmen had been rescued. Ryan was severely injured about the chest. Lavalle was injured about the shoulders and chest. While the work of rescue was going on the pitiful cries of Marshall and Lynch could be heard from beneath the mass of earth. One of the men, supposed to be Marshall, cried:

"This way, for God's sake, this way."

Lynch also repeatedly called for help, but after awhile his cries ceased, and when his body was reached he had ceased to breathe. Five minutes later Fred Marshall was rescued. He was able to walk a short distance and take a carriage to his home.

The Chinese Census Bill.

Special to the Journal.

WASHINGTON, April 9.—The Chinese Census Enumeration bill was taken up and Everts said he regarded the amendments reported by the Census Committee as an improvement on his bill and was willing they should be adopted.

Mitchell explained the purpose of some of the amendments which he offered. He did not like the bill very well as it came from the House; but as amended by the Senate Committee it was, he said, absolutely worthless.

Hearst said his idea and notion of legislation on the subject was the passage of a law that would exclude Chinese from coming into this country after a certain date, but would treat the Chinese already here fairly.

McCall agreed with Hearst and desired to have the law exclude all Chinese except members of the diplomatic corps without action.

The Senate adjourned.

The Nationalists Still in Session.

Special to the Journal.

SAN FRANCISCO, April 9.—In the National Convention to-day the report of the Committee on Organization was read and discussed. The report recommends among other things a strong organization of the clubs represented by a State Administrative Committee of three members from each Congressional district as opposed to the usual plan of a State Central Committee. Cator offered the amendment that the Convention select one member at large for Chairman of the Administrative Committee and named J. W. Hines, of San Jose. After a two-hour debate the amendment was rejected by a vote of 54 to 5, whereupon Cator and thirty or forty other delegates left the hall.

California Prohibitionists in Convention.

Special to the Journal.

SAN FRANCISCO, April 9.—The State Convention of the Prohibition party met here to-day. The Convention was called to order by Rev. George Morris, Chairman of the Executive Committee. An attempt was made to call the roll, but a general clamor arose, as several delegates objected to the proceeding until the regular presiding officer was chosen. Finally one member proposed the name of Gen. John Bidwell, of Ohio, for Chairman, and a motion to that effect was carried. A. J. Waterhouse, of Stockton, was elected Secretary. The Chairman then appointed a Committee on Credentials and the Convention took a recess.

New Jersey Has a Cry.

Special to the Journal.

TRENTON, N. J., April 9.—A joint committee of the Legislature to remedy the present agricultural depression in New Jersey, have agreed on a memorial to Congress. The memorialization of silver is given as one of the causes of the depression. It also inveighs against the opening up of further public lands to be given away to foreign syndicates and immigrants when there are plenty of farms in the East to be cultivated. The memorial opposes irrigation by the Government for the purpose of helping western farmers and asks Congress to turn its attention for a while to farms in the East.

A Plague of Field Mice.

Special to the Journal.

NEW YORK, April 9.—According to a cable dispatch a terrible plague has swept over a large section of southern Russia. Millions of field mice overrun those provinces and have ruined cultivated fields, and completely gutted granaries and wheat stacks. They are being killed and eaten by several hundred dogs.

A \$2,000,000 Subsidy.

Special to the Journal.

PORTLAND, Oreg., April 9.—The committee of citizens appointed about a month ago to raise a subsidy of \$2,000,000 in order to secure a branch of the Hunt system of railroads in this city, completed its labors to-night, having raised the full amount required.

More Chinese Caught.

Special to the Journal.

SAN DIEGO, April 9.—Two more Chinese were caught at Tia Juana this forenoon while trying to steal across the line making 25 apprehended since Sunday.

Eva Wants Money.

Special to the Journal.

ALBANY, N. Y., April 9.—Judge Andrews, in the Supreme Court Chambers yesterday, reversed decision upon an application by Mrs. Evangeline B. Hamilton for an order directing Robert Ray Hamilton to pay her a sum sufficient to employ counsel to defend the action brought by Hamilton for the annulment of his marriage with her. Charles L. Fuller appeared for Mrs. Hamilton and S. B. Clark for Mr. Hamilton. Mrs. Hamilton says she has no property which can be disposed of and that she has no money to pay lawyer's fees. Mr. Clark said that his client denied that Eva was poor, and states that she does not need money. He says that she had at the time of her commitment about \$3,000 worth of bonds which he had given her. He also says that she has had no opportunity to spend money since her confinement.

Suing His Old Mother.

Special to the Journal.

NEW YORK, April 9.—Joseph H. B. Edgar, son of the late Dr. David A. Edgar, of Westfield, L. I., has begun suit in the Supreme Court of Richmond county against his aged mother, Catherine N. Edgar, to recover \$1,186 on a promissory note. In her answer to the complaint Mrs. Edgar alleges that she did not know the contents of the paper when she signed it. She further states that she is in no way indebted to her son for money. Mr. Edgar is the cashier of the First National Bank at St. George.

Rev. Peter Venetian, convicted at Youngstown, Ohio, of embezzling \$6,000 from a widow was sentenced to three years' imprisonment in the Penitentiary.

Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. Job. 21-sw-ly

WHAT IS SCROFULA

It is that impurity in the blood, which, accumulating in the glands of the neck, produces unsightly lumps or swellings; which causes painful running sores on the arms, legs, or feet; which develops ulcers in the eyes, ears, or nose, often causing blindness or deafness; which is the origin of pimples, cancerous growths, or the many other manifestations usually ascribed to "humors," which, fastening upon the lungs, causes consumption and death. Being the most ancient, it is the most general of all diseases or affections, for very few persons are entirely free from it.

How Can It Be CURED

By taking Hood's Sarsaparilla, which, by the remarkable cures it has accomplished, often when other medicines have failed, has proven itself to be a potent and peculiar medicine for this disease. Some of these cures are really wonderful. If you suffer from scrofula, be sure to try Hood's Sarsaparilla. "My daughter Mary was afflicted with scrofula sore neck from the time she was 22 months old till she became six years of age. Lumps formed in her neck, and one of them after growing to the size of a pigeon's egg, became a running sore for over three years. We gave her Hood's Sarsaparilla, when the lump and all indications of scrofula entirely disappeared, and now she seems to be a healthy child." J. S. CARLISLE, Nauright, N. J.

BREVITIES.

Yesterday was a lovely day.
Fresh oysters at the Palace restaurant.
Billy Price was down from Ophir yesterday.

Go and see "The Great Metropolis," tonight.

Mrs. J. M. Campbell, of the Enterprise, is in town.

John Gillig, of Virginia, was a passenger for the Bay last night.

Jas. G. Rule, the mining Superintendent, went below last night.

Secretary of State Dormer came down from Carson last night.

Land in and around Reno is becoming more valuable every year.

The Carson press speaks in the highest terms of "The Great Metropolis."

Geo. Schaefer, the big lumber man of Truckee, is in Reno, and looking out for a ranch.

C. Derby and Mrs. Larry Derby and child, were passengers for the Bay last night.

Old Man Small has returned to Reno after a pleasure trip to Montana. His partner, Tom Hyams, is glad the old man got back safe.

H. J. Thyres has just received some elegant advertising cards from Schmidt & Co., the manufacturers of orange and sarsaparilla and iron water.

The Southern Pacific Company has given a special rate of \$2 per 100 pounds on compressed wool from Reno to Philadelphia and Boston. Utah pays \$2 10, Idaho and Oregon \$2 25.

President Huntington says he will allow no politics in the management of the Southern Pacific Company henceforth if he can prevent it. It is to be hoped the new President will carry out the sentiments expressed.

The Enterprise says Colonel E. D. Boyle, of the Alta, has been appointed Superintendent of the Lady Washington. Colonel Boyle was Superintendent of this mine for many years prior to the appointment of Chas. Derby.

Just twenty-five years ago yesterday General Lee surrendered the Confederate forces under his command to Gen. Grant at Appomattox Court House, Virginia. The force surrendered was known as the Army of Northern Virginia, numbering 27,805 men.

The new cottage on Second street, Powning's Addition, is being built for sale. It will soon be ready for occupancy, and will be a very handsome cottage. It is the most conveniently arranged on the inside of any house in town. For particulars inquire at the JOURNAL office.

E. V. Livers, Manager for the Pacific Manufacturing Company of San Francisco, who has been in town for two days looking after their business affairs here, left for home last night. In conversation with the gentleman it was learned that his company will continue to be represented here by Lew Stevenson in the sale of their popular Cyclone windmills and pumps, a carload of which will be sent on in a few days. While their last year's business in the State was principally east, along the line of the railroad, it is proposed to branch out north and south this season; ship here in car lots, making this a distributing point for the whole country east of the range. Look out for an ad. in the JOURNAL next week.

J. M. Campbell Arrested.
VIRGINIA CITY, April 9.—J. M. Campbell, lessee of the Territorial Enterprise, was arrested to-day on the charge of violating the Nevada Statutes prohibiting the publication of lottery advertisements. Campbell gave bonds in the sum of \$250. The penalty is a fine of \$500 or six months imprisonment.

High School Societies.

The following is the programme arranged to be given by the members of the High School at Armory Hall on Friday evening. The scholars having the matter in charge have worked bravely and enthusiastically, and it is to be hoped they will meet with a success corresponding to their exertions. President Harrison in a recent speech remarked that "The public school is the bulwark of American liberty," a sentiment which all true American citizens will heartily endorse. Improvement and progress in the schools is improvement and progress in the right direction, therefore let all help the good cause along.

PROGRAMME.

Miss Grace Wasson
Declamation, "John Brown,"
Harry Stewart
Closing song, "John Brown's Body,"
School and Audience

After the rendering of the programme, the floor will be cleared and dancing and a general good time will be indulged in. No pains will be spared to make the event a pleasing and successful one.

The Great Metropolis.

This company will appear in Reno this evening and can remain here only one night. In the course of an extended notice of the company's appearance at Spokane the Spokesman of that place says:

"One of the strongest scenes was that between Mr. Morris, as Webster, and his wronged sister Gertrude, Miss Clyde Horon, at the close of the third act, and well merited the curtain call which they received. A strong feature was the general excellence of the company, even in the minor parts. Captain Carr, Tom Kelly and Fantine were all good. Mr. Johnstone, as Jack Holt, Mr. Fiske, as Vansittart, and Misses Barry and Illidge, as Nell and Clara, their respective sweethearts, were pleasing, and Miss Heron, as Gertrude, was particularly good. William Morris, as the young captain of the life saving station, made the most of several storm situations, and Harry Bell was a very entertaining real estate agent, never carrying comedy into horse play, even when 'three sheets in the wind,' as he was at the light house." If all our real estate agents go this evening to the performance of "The Great Metropolis" to see Mr. Bell's Benjamin Bert, they will enjoy the representative business and perhaps gain some information in manipulating real estate.

Another Unfortunate.

The Virginia Chronicle of last evening says Mrs. P. McNeue was adjudged insane at an examination held in the Court House yesterday morning by Drs. Webber and Collins. Her dementia is of a type that impels her to destroy everything within reach. When not closely watched she has a mania for burning household furniture and throwing coal oil in the stove. The unfortunate lady has a husband and a grown son and daughter. She was brought to Reno last evening and placed in the Asylum.

At the Potosi.

The rumor that was in circulation Monday night about an improvement in Potosi, says the Enterprise, was not groundless. Mr. Pendergast, the foreman, informed an Enterprise representative that both the up-raise and the winze from the 930 level of Potosi, 450 feet from the shaft, were in better ore than they were in Saturday. Mr. Pendergast says the management is pleased with the outlook in both Potosi and Chollar, and they entertain strong hopes of developing good ore bodies there.

"The Great Metropolis."

The following dispatch received from Manager Piper last night at a late hour will give our people an idea of the treat in store for those who go to the Opera House to-night:

VIRGINIA CITY, April 9.—11 P. M.

To Reno JOURNAL:
Great Metropolis opened to a full house. Play a great success. Boxes filled with our best people, including Mackay, Lyman and Keating.
JOHN PIPER.

Legislative Timber.

The Carson Tribune hopes to see Ormsby county send active and brainy men as representatives to the Legislature this year. It says Trennor Coffin would make an excellent and influential State Senator, and J. P. Woodbury, of Empire, and W. L. Woolley, one of Carson's present City Trustees, could accomplish much good for the State and county in the lower branch.

WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as DRUGS' BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

BEFORE EDISON'S TIME.

OLD STORIES AND FICTIONS ABOUT THE PHONOGRAPH.

Abbe Migne's Description of Scott's Invention in 1859—A Story from the Moon—In the Airy Realms of Ancient Fancy—Baron Munchausen and the Horn.

No invention, no discovery, has ever come unheralded. The world wakes up some fine morning and rubs its startled eyes to find that America, the steam engine, the printing press, have been added to its possessions, and forgets that it dreamed of these things over night. The new fact which civilized man claims as a sign of his advancement was happily imagined by some primitive savage. America was discovered before Columbus; the steam engine was anticipated by the pre-Christian Heiro; the printing press was fore-shadowed 8,000 years ago by the brick stamps of the Egyptians.

THE PHONOGRAPH BEFORE EDISON.

But the phonograph! That, at least, is new; nothing like it has ever been known to man—has ever been dreamed of by man. Wrong again. Something just like it was invented when Edison was barely out of his cradle, and more or less dim premonitions of the modern marvel haunted the brains of our ancestors for centuries back. In the year 1850 the famous Abbe Migne read a paper before the British association describing an instrument called the phonograph, which had been recently invented by a young Frenchman, M. E. L. Scott. "The phonograph consists of a tube enlarged at one end in the same manner as a trumpet, in order to concentrate the sounds, which are conveyed through it to a thin membrane tightly strained over the other end of the instrument. This membrane carries affixed to it an excessively light stylus or pencil, which is put in motion by every vibration produced by the action of the air upon the membrane.

"Behind this stylus a band of paper, covered with lamplack, is unrolled by clock-work, and as this band passes along the point of the stylus traces upon the lamplack all the curvilinear and rectilinear movements originating in the vibrations of the membrane, and thus produces in its own peculiar characters a faithful reproduction of the sound." The instrument was still in the rough, however, and the abbe went on to explain that while it was fairly successful with musical sounds the human voice when uttered had little doubt that eventually the phonograph would supersede stenography, and would register for future generations not only the words but the very tones of famous actors and orators. But M. Scott seems to have been unable to conquer the difficulties lying in his path, and he and his invention disappeared from view.

So much for an actual anticipation of Edison's idea. In the realm of imagination a very curious forecast may be found in Cyrenus de Bergerac's "Voyage to the Moon," the book from which Swift did not disdain to borrow ideas. Cyrenus' imaginary traveler tells of a wonderful book presented to him by a lunar inhabitant, a book with neither leaves nor letters, a book made wholly of the ears and not the eyes. "So that when anybody has a mind to read it he winds up that machine with a great many little springs, then he turns the hand to the chapter which he desires, and straight as from the mouth of man, or a musical instrument, proceed all the distinct and different sounds which all the lunar grandees make use of for expressing their thoughts instead of language."

In No. 254 of The Tatler Sir Richard Steele pretends to have come in possession of an unpublished manuscript by Sir John Mandeville, which gives some account in its usual verbose manner, of the freezing and thawing of several short speeches in Nova Zembla. "I need not inform my readers," adds Sir Richard, "that the author of 'Hudibras' alludes to this strange quality in that cold climate, when, speaking of abstracted notions clothed in a visible shape, he adds that simile:

Like words congealed in northern air.

THE CREW WAS REALLY AMAZED.

Mandeville's pretended story tells how the weather was so cold that he and his companions on shipboard found themselves deprived of the benefit of speech—their words froze in the air before they could reach the ears of the person to whom they were spoken. This distressing state of affairs lasted for three weeks. At length a thaw set in. "Our cabin was immediately filled with a dry, clattering sound, which I afterward found to be the cracking of consonants that broke above our heads, and were often mixed with a gentle hissing, which I imputed to the letter s that comes so frequently in the English language.

"I soon after felt a breeze of whispers rushing by my ear, for those being of a soft and gentle substance immediately liquefied in the warm wind that blew across our cabin. These were soon followed by syllables and short words, and at length by entire sentences, that melted sooner or later, as they were more or less congealed; so that we now heard everything that had been spoken during the whole three weeks that we had been silent—if I may use that expression. My reader will easily imagine how the whole crew was amazed to hear every man talking and see no man opening his mouth."

A still mightier liar than even Steele's Mandeville, the famous Baron Munchausen, had a very similar tale to tell. He informs us that, traveling one severe winter's day in Russia, the postilion tried vainly to wind his horn in the open air. Later, when the company were assembled around the kitchen fire of a hostelry, they heard a sudden tereng, tereng, tereng. "We looked around and now found the reason why the postilion had not been able to sound his horn; his lungs were frozen up in the horn and now came out by thawing, plain enough, and much to the credit of the driver, so that the honest fellow entertained us for some time with a variety of tunes without putting his mouth to his horn."

Surely Munchausen's horn is no bad prototype of Edison's phonograph.—Chicago News.

Preparing to Kick.

A well known citizen was discovered going through some singular motions in one of the corridors of the city hall yesterday, and an acquaintance who ran against him cried out: "What on earth are you up to now?" "Taking off my diamond pin." "But where's your watch?" "In my coat tail pocket." "Afraid of being robbed?" "Oh, no; it's business." "How?" "Why, the assessors have put me down for four dollars tax on personal property, and I'm going in to kick." "But you've got a horse." "Yes, but he wasn't in the day they called." "And a piano." "That happened to be at the factory to be repaired." "But your bank account?" "Sh! It's in my wife's name! Keep quiet. Now, then, I'm ready to go in and tell them that the people are ready to take up arms to rid themselves of this terrible burden of high taxation."—Detroit Free Press.

250 Beautiful Lots For Sale!

A RARE CHANCE FOR AN INVESTMENT AND A HOME

THE MOST LOVELY PORTION OF RENO.

Facing the Truckee—The Aristocratic Avenue—Riverside Driveway—Splendid Sewerage—Healthy Location and Safe From Fire.

The proprietor is now ready to receive proposals for lots in Powning's Addition. The map gives a good idea of the tract, which is situated between the Central Pacific Railroad and the Truckee River, and commences on the west at a point three blocks distant from Virginia Street, making it the most central and convenient of any portion of the rapidly growing town of Reno. Unlike any other part of the town this Addition faces the beautiful Truckee River and Riverside Avenue is certain to become the fashionable driveway of the country. The streets are 80 feet wide, while Riverside and Keystone Avenues are intended to be 100 feet in width. All alleys are 20 feet wide. The soil is a rich gravelly loam, and susceptible of the highest state of cultivation. Being situated as it is it is more safe from fire than any other section. The regular lots are 50x140 feet. The sewerage is perfect.

Before Buying Elsewhere Parties will do Well to Look at These Lots.

RENO

Reno's geographical position is excellent. It is on the line of the Central Pacific Railroad, only 154 miles from Sacramento, and 244 miles from San Francisco. It is the terminus of the Virginia and Truckee Railroad running south, and of the Nevada and California Railroad running north. It has two Flouring Mills, Planing Mills, three Nurseries, a Soap Factory, Reduction Works, and other industries. A great Woolen Mill and a Sash, Door, Blind and Box Factory, are about to be established.

Reno has the Bank of Nevada with \$300,000 capital, and the First National Bank with \$200,000 capital. It has two fine papers in the DAILY and WEEKLY NEVADA STATE JOURNAL and the Daily and Weekly Gazette.

Reno is the natural home of the Alfalfa, and therefore the great cattle headquarters of the State. Here are fed the prime beef for the California market. Reno potatoes are the best in the world, and she also excels in strawberries and the small fruits. Reno Wheat took the first prize at the great New Orleans Exposition.

The State Fair is always held at Reno. Reno is the County Seat of Washoe County, the wealthiest county in Nevada.

RENO

Has no equal in Nevada or California for salubrity of climate, wealth of soil, diversity of products and stability. Situated in the very heart of the celebrated Truckee Meadows the future of Reno is assured. Reno is the City of Homes. There is not a house to rent in Reno. New buildings are occupied as fast as erected. Reno has advantages which no other town can equal. The climate is mild and genial in Winter, and even and healthful in Summer. There are no excessively heated or severely cold terms, and while the days may be warm in Summer the nights are deliciously cool; in Winter sleigh-riding is the exception and not the rule.

Facilities for irrigating surpass any in the State and there is no failure of crops. Reno has Churches of all denominations, Bishop Whitaker's School for Girls, Mt. St. Mary's Academy, the State University, and splendid Public Schools.

The Reno Water Co. furnishes ample pure, cold water for all purposes. The Reno Electric Light Co.'s electric light system, already well established, is being augmented. The Reno Gas Co. supplies gas for all purposes. The streets of Reno are lighted by electricity.
